

BBQ Tubes Fridge Cutout

PARTS 2 each 3 ways

2 each CTT tubes

Used at bottom

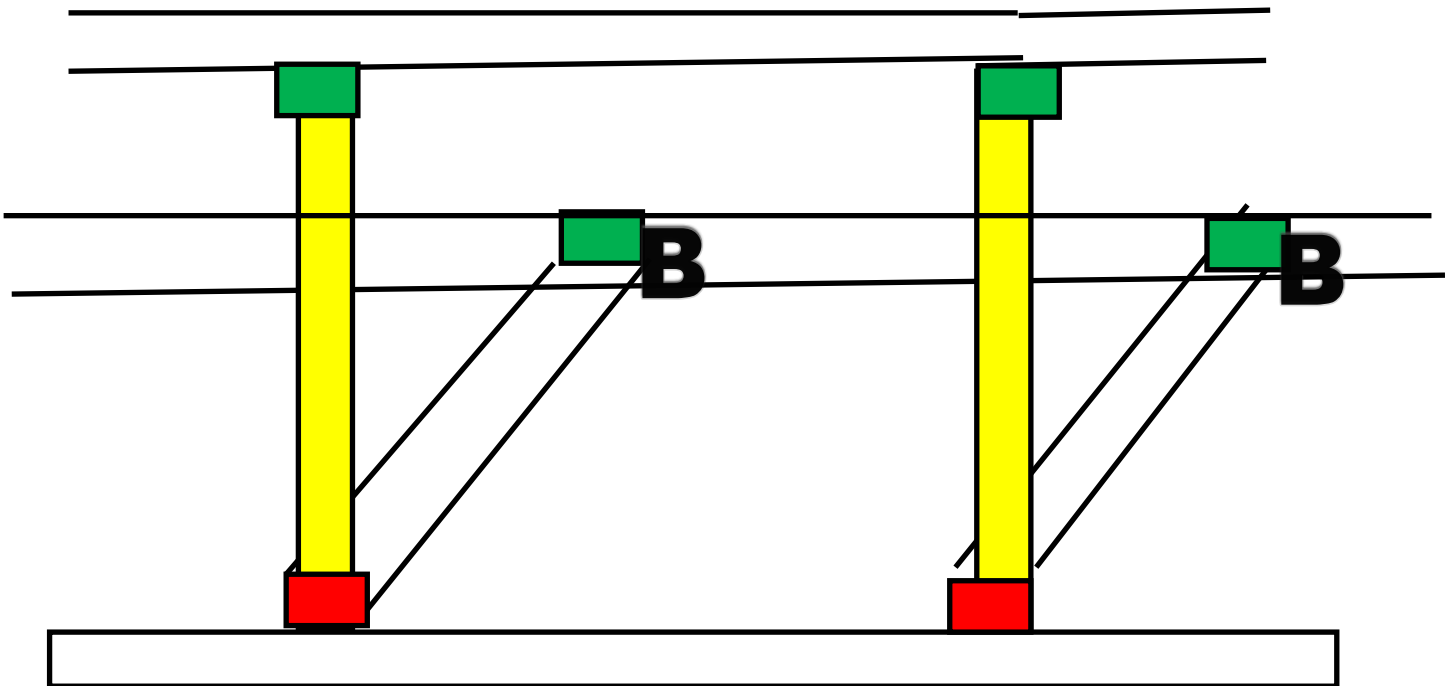

bottom supports

NOTES: use the 2 VT vertical tubes from the front of the module for the right and left sides of fridge shown yellow.

Use the 2 one way connectors from the module (not the cutout kit) to hold the rear CTT figure B

The cutout kit does not include any 1 ways because you can use the ones that came with the module.

We recommend you install a CTT centered in the counter top above the fridge for counter top support.

 Vertical Tube

 3 way corner
